Main Interface

When Presentation Assistant Pro is launched, it displays on the top of screen, as shown below.

Draw on screen

To draw on screen, just click Screen button or with the system-wide hot keys Alt + 2. A Screen Drawing Toolbar will float on screen as shown below.

How to Exit Drawing Mode?

1. Press Escape key to clear all and exit.
2. Or press right mouse button to exit but drawings remained.
3. Or press the Screen Drawing Toggle Hotkey (Default Alt+2).
4. Or click the Windows/Drawing Switch button on the tool box.

**Whiteboard**

Just click **Board** button and the whiteboard will be shown below.

**Pointer Effect**

The Pointer Effect options make it easy for your audience to follow your actions while doing a demo, or presentation. Within the **Main Control Pane**, choose the **Pointer Effect** option.
