

“With these **10** questions format the quiz into a table with the following format:

Column A is the type of question: MC (multiple choice), TF (true/false), MR (multiple responses) . Column B is not used but must be there. Column C is the point value of the questions. Column D is the question body. Column E is the correct answer; use a numeric value. The numbers 1-4 each correspond to one of the possible answers listed in columns F-I. Use 1 to indicate a, 2 to indicate b, 3 to indicate c, 4 to indicate d. Columns F-I are the possible answer choices. Use possible answer in words on columns F-I”
